# THANK YOU FOR JOINING THE FIGHT AGAINST NF.

Neurofibromatosis is a group of genetic disorders that causes tumors to grow on nerves throughout the body and may lead to deafness, blindness, learning disabilities, disfigurement, disabling pain, and cancer.

NF, which includes all forms of neurofibromatosis and schwannomatosis, affects nearly 4 million people worldwide. It affects all populations equally, and there is no cure yet.

Two great organizations are leading the fight against NF by tackling this brutal genetic disorder on many fronts.

NFX, formerly NF Forward, was established by Jennifer and Dan Gilbert to fund innovative research with audacious, high-reaching goals to accelerate a cure for NF.

The Children's Tumor Foundation (CTF) is a global organization dedicated to funding and driving innovative research that will result in effective treatments for those living with NF.

## NEED MORE INFORMATION?

Contact Alexis Weisbrod at (313) 373-0698 or [Team@NFXDetroit.org](mailto:Team@NFXDetroit.org).
